UX Designer / Frontend Developer

UX Designer & Frontend Developer with 5+ years of experience designing and developing intuitive, data-intensive applications across commercial and enterprise environments. Specialized in decision-support workflows, complex data visualization, and AI-assisted user experiences. Strong frontend background in Angular and React with backend integration via Python APIs. Proven ability to translate complex requirements into scalable, user-centered digital products within Agile/Scrum teams.

Skills & Technical Proficiencies

Languages & Frameworks:	HTML, CSS, JavaScript, TypeScript, Python, Angular, React, React Native, Storybook, FastAPI
UX & Product Design:	Wireframing, Prototyping, Accessibility (WCAG), Interaction Design
Design Tools:	Figma, Adobe CC, Photopea
Testing & Code Quality:	Jasmine, Jest, ESLint, Prettier, Postman, Pytest, MyPy, Pylint, Black
Version Control & Dev Tools:	Git, GitHub, GitLab, Azure DevOps, Jira
Cloud & Deployment:	AWS, Azure

Career Experience

AGILESRC LLC, Orlando, FL
UX Developer

2022 – Present

- Led end-to-end design and development of 11+ applications, including eCommerce platforms, data visualization dashboards, and inventory management systems, improving process efficiency by 30% through streamlined workflows and reusable components.
- Designed role-based user experiences for analysts, operators, and executive stakeholders, balancing advanced functionality with clarity and ease of use.
- Developed responsive frontends using Angular, React, and React Native, and built scalable REST APIs with FastAPI, contributing to a 20% increase in user traffic.
- Created custom data visualizations, interactive dashboards, and global mapping interfaces to communicate system states, impacts, and outcomes in near real time.
- Integrated AI-assisted features to surface insights, recommendations, and summaries while reducing cognitive load during time-sensitive workflows.
- Implemented unit and integration testing using Jasmine, Jest, and Postman, reducing bugs by 25% and improving code quality and maintainability.
- Built reusable UI components and design patterns aligned with scalable, open architectures, enabling extensibility and long-term product growth.
- Mentored junior developers through structured weekly sessions focused on technical skill development and professional growth.

Lodge Lovers, East Lansing, MI

2021 – 2022

UX Designer

- Created and executed content strategies aligned with product goals, boosting customer engagement metrics by 20% across landing pages.
- Led UX design for consumer-facing web experiences, aligning content structure, visual hierarchy, and interaction patterns with business and user goals.
- Conducted UX audits, usability reviews, and competitive analysis to identify friction points and inform redesign decisions.
- Partnered directly with clients to gather requirements, iterate on designs, and deliver solutions on schedule.

JMB Architects LLC, Elmhurst, IL

2012 – 2022

Design Lead / Frontend Developer

- Redesigned the firm's website using user research, responsive design, and usability best practices, increasing average session duration by 35%.
- Led digital and visual design initiatives across web, marketing, and client-facing materials, supporting business development and brand consistency.
- Produced 2D and 3D architectural models using AutoCAD and Autodesk Impression 3, improving project visualization and reducing design revisions by 20%.

Education

Bachelor of Arts in User Experience Architecture

Michigan State University, East Lansing, MI
